

Make it in Washington

SPONSORED TUITION FOR ONLINE EDUCATION

Make it in Washington provides sponsored tuition for online certificates and degrees to advance manufacturing, logistics, sourcing and leadership skills at all education levels to help employees and businesses succeed.

Washington State
Workforce Training
And Education
Coordinating Board

HIGHLINE COLLEGE & SHORELINE COMMUNITY COLLEGE

These industry-focused courses are coordinated by Highline College's Center of Excellence for Global Trade & Supply Chain Management. The Center offers fast, flexible, quality education and training programs responsive to industry, with a goal of developing a skilled workforce for international trade.

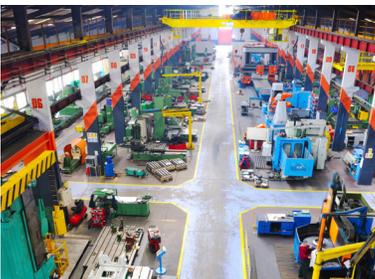

Courses are stackable, enabling employees to enroll in short-term certificates that build on each other. Each certificate connects to a larger credential and can lead to an Associate's degree and a new Bachelor's of Applied Science degree in Global Trade & Logistics.

HIGHLINE COLLEGE

- International Trade & Logistics Certificate

SHORELINE COMMUNITY COLLEGE

- Supplier Relations & Logistics Certificate
- Purchasing & Contract Management Certificate
- Purchasing & Supply Chain Management Certificate

WASHINGTON STATE UNIVERSITY ENGINEERING & TECHNOLOGY MANAGEMENT (ETM)

This professional-level certificate program, part of the ETM Master's Degree, empowers employees to advance their careers and helps companies fill workforce gaps and increase their competitiveness, profitability, and market share. Eligible students—both current and future employees—can receive scholarships to enroll in the following certificate programs:

Graduate Certificates

- Project Management
- Six Sigma Quality Management
- Manufacturing Leadership
- Constraints Management
- Logistics and Supply Chain Management

Undergraduate Certificates

- Project Management
- Six Sigma Quality Management
- Manufacturing Leadership

Make it in Washington

EDUCATION & BUSINESS CONSULTING FOR MANUFACTURERS

HOW DOES IT WORK?

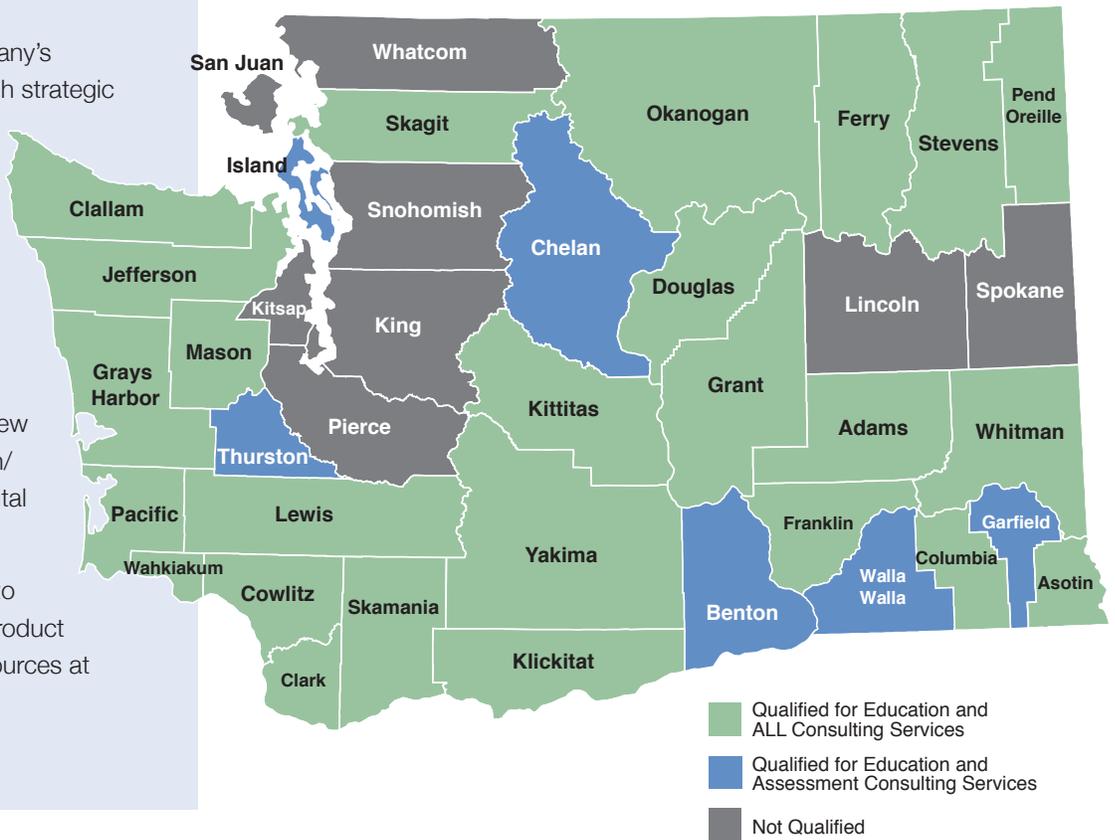

Make it in Washington offers you the opportunity to build your manufacturing business and improve your workforce at the same time.

Here's what it can do for you:

1. Advance your staff's productivity through funded online training
2. Boost your company's profitability through strategic consulting.
3. Assist you with supply chain challenges to better compete for global customers.
4. Connect you to new sources of growth/development capital including FDI.
5. Give you access to state-of-the-art product development resources at the UW.

The goal of **Make it in Washington** is to increase manufacturing capacity, strengthen supply chains, attract investment and create new opportunities for businesses and individuals.

We are working with manufacturers in select Washington counties to help them better compete for business going overseas and identify opportunities to work with other Washington companies.

The Make it in Washington Alliance is comprised of businesses that have participated in the Make it in Washington program.
